THE RACCOON GAME

THE GAME

The purpose of the game is to help Spiki the raccoon to escape from the fox jail. For that you will have to roll the dice and get the card from the color you have obtained. After that you will have to respond to the question or mission written on the card. If you succeed, you move forward your pawn from the number of points noted on your card, but if you fail you will have to move back from the number of points noted on your card. The first one to arrive at the last box wins and free Spiki the raccoon.

WHAT'S IN THE BOX?

- Board
- 70 cards
- 6 raccoon pawns
- A 6 faces dice

WHAT DO YOU NEED TO PLAY?

The setup : Install the board. Each player has to choose his pawn. Put every pawn in the dep line. Prepare the cards, in 5 different stacks (separating the cards by color).

THE CARDS

Guess which brand this graphic charter belongs to !

Guess the brand thanks to a modified logo !

On phone with internet connexion answer an online general knowledge quizz

Guess which one of the two keywords noted is the most referenced word

The faces of two celebrities have been mixed, guess who they belong to!

THE RULES

Hello, agent raccoon 001, we need you !
In fact, you are here today to help Spiki the raccoon
to escape from the fox jail.

You are allowed to do this mission only if you are 15 years old or more because it is classified as very dangerous. If you are good, this rescue going to last between 30 and 45 minutes. Only one you will be able to save Spiki, but you can be between 2 and 6 to participate.

The younger agent starts. After that each raccoon roll the color dice and answer to the fox question written on the card corresponding to the color of their dice.

If you have the white face of the dice, you're lucky, you can move foreword by 3 boxes. When you get your card, you must answer to the fox question or task, if you succeed, you move foreword from de boxes indicated at the top of your card, if you failed you step back from de boxes indicated at the top of your card. Be careful agents, you only have 30 seconds to complete the mission of the drawn card. If you failed the mission of the card and you are still on the case start, you can't move back.

The foxes will try to complicate the task during your rescue, so when you arrived at a fox box, you must get back to the last box you were (if you won 3 cases and you arrived at the fox case you step back 3 cases before).

Fortunately for you, some of our raccoons' friends have installed ladders that will maybe help you during your mission. If you succeed in a case where there is a ladder, you can climb it and go to the box at the top of the ladder. On the contrary, if you wail on a ladder box, you must get down to the box at the bottom of it and lose your place.

If you don't have a phone during the game, you have to cancell the black card «general culture». If you take a black card with the raccoon and a book, you can move foreward of 3 boxes.

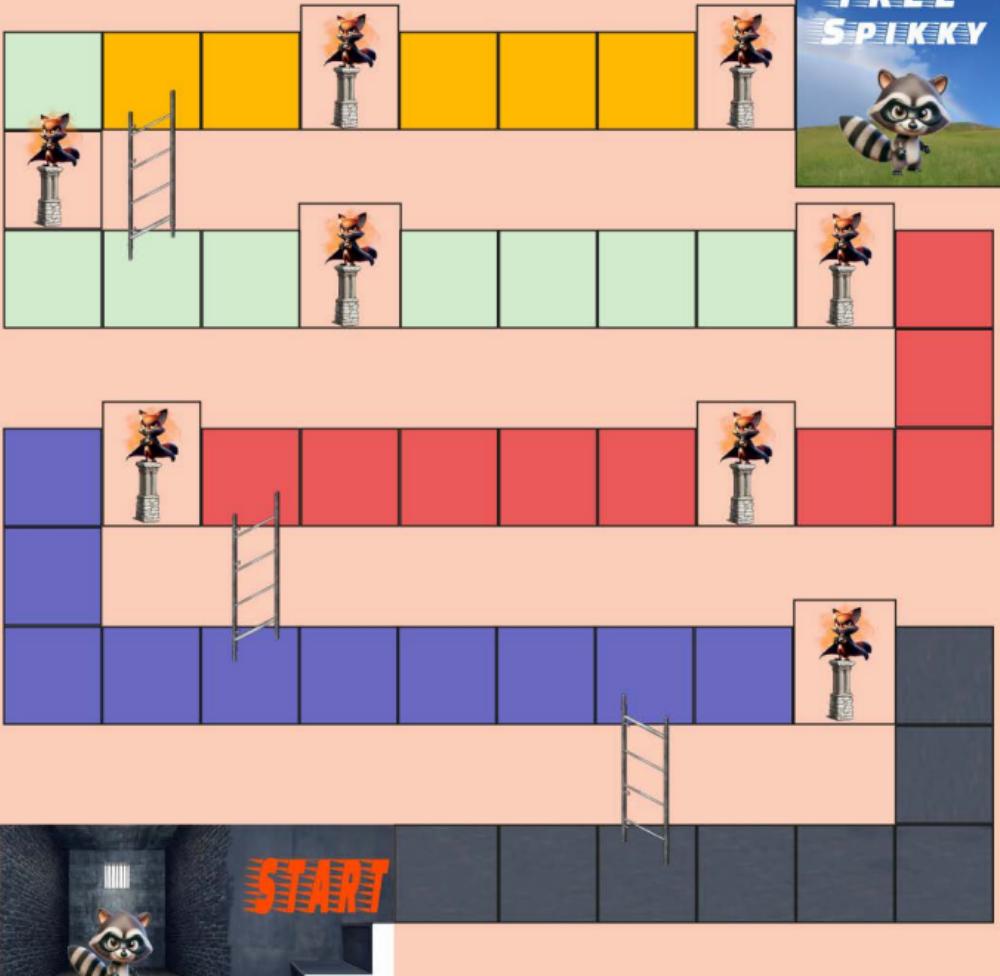

Agent raccoon, you only succeed in you mission when you arrive at the last case, or after.

WEBSITE

**DIGITAL
DICE**

GENERAL CULTURE

SCAN THE QR CODE and answer to the question on your mobile. if you succeed, you will be shown the number of boxex to move forward.
